## Dr. Miles' Heart Cure

Cures a Prominent Attorney.

M. R. C. PHELPS, the leading pension attorney of Belfast, N. Y., writes: "I was discharged from the army on account of ill health, and suffered from heart trouble ever since. I frequently had fainting and smothering spells. My form was bent as a man of 80. I constantly wore an overcoat, even in summer, for fear of taking cold. I could not attend to my business. My rest was broken by severe pains about the heart and left shoulder. Three years ago I commenced using Dr. Miles' Heart Cure, notwithstanding I had used so much patent medicine and taken drugs from doctors for years without being helped. Dr. Miles' Heart Cure restored me to health. It is truly a wonderful medicine and it affords me much pleasure to recommend this remedy to everyone."

## TRANSPORTS SECURED

Government Charters Eight Large Vessels to Carry Soldiers to the Island of Cuba.

## PLANS OF CAMPAIGN

## FRANCE DECLARES NEUTRALITY

Nothing Has Been Heard From Germany by the State Department.

Portugal's Minister Says His Government Will Remain Neutral—United States Equipping a Balloon to Watch the Movement of Spanish Warships—Shelling of Matanzas Sole Topic in Naval and Official Circles—Camp Mount Placed Under the Strictest Military Discipline and Volunteer Companies Assigned.

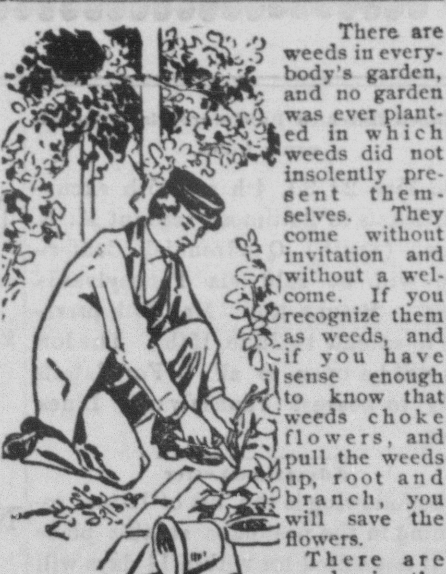

Chattanooga, Tenn., April 29.—All of the Ninth cavalry, the Twenty-fourth infantry and the entire eight batteries of artillery, now centered at Chickamauga, will leave for the south as soon as they can be loaded into the cars, which are in readiness for them. By tonight, it is thought, all of the trains will be on their way to Tampa. The first intimation last night of the order was when a bugler of the Ninth cavalry, with the two companies of that regiment, which arrived from Utah yesterday, sounded the "assembly," and the few troopers who had been given permission to leave the cars, hurried along the streets to the railroad yards. News of the ordering of the troops south drew a tremendous crowd around the depot and railroad yards, and the soldiers were cheered again and again as the train pulled out.

## COCHRAN'S COMMAND.

Order to Hold It In Readiness For Immediate Departure.  
Tampa, Fla., April 29.—Soon after the news of the bombardment of Matanzas forts by Admiral Sampson reached here Colonel Melville A. Cochran, commanding the first provisional brigade of Tampa division, received orders from Washington to hold his command in readiness for immediate departure with rations for 30 days.

## SECURED TRANSPORTS.

Government Charters Eight Vessels to Carry Troops to Cuba.  
Washington, April 29.—A rather striking sign of the imminence of the invasion of Cuba is contained in the chartering by the war department of eight large steamers of an average capacity of about 2,000 tons, and able to carry from 500 to 1,300 passengers each. These are to be used as transports for the conveyance of the first military expedition to Cuba.

There are weeds in every body's garden, and no garden was ever planted in which weeds did not insidiously present themselves. They come without invitation and without a welcome. If you recognize them as weeds, and if you have sense enough to know that weeds choke a garden, and pull the weeds up, root and branch, you will save the flowers.

There are weeds in the health-garden of many a man and woman. The doctor calls them disease germs. If you have sense enough to distinguish them from the flowers of health, and root them out, you will be robust, healthy and happy. The most dangerous of all the weeds in the flower garden of health is that deadly creeper consumption.

pedition to Cuba. The names of the boats are the Olivette and Florida of the Plant line, now in the Gulf; the Southern Pacific company's steamer, Aranzas, the New York and Texas companies' vessels, Comal, now at New York, and the Malmo, now en route to the Gulf; and three fine ships of the Boston merchant and miners' line, in Baltimore—the Allegheny, the Berkshire and the Decatur Miller.

The price paid for these vessels is from \$10,000 to \$15,000 for the 30 days for which they are engaged. They will be taken charge of by the quartermaster's department at the earliest possible moment.

General Shafter in command of the United States troops now concentrated at New Orleans was in consultation with the officials yesterday as to the execution of plans of the campaign, but the orders given to him cannot be made public.

The president and cabinet are today considering the large number of applications that have been made for appointment to the posts of major general and brigadier general and there is some expectation that the president will nominate a few of these officers this evening.

## ALLOTMENT WILL STAND.

Will Be No Change in Number of Troops to Be Furnished by States.

Washington, April 29.—Adjutant General Corbin says that the secretary of war has decided to adhere to the allotments already made to the various states and territories under the president's call for 125,000 men for service in the volunteer army, and that it is only a waste of time for the officials of the different states to endeavor to have their allotments increased. He said there had been several changes made in the original plan, due to the necessities of the case, and that in one or two instances where it was advisable changes had been made in the character of the troops that the states or territories should furnish, cavalry being substituted for artillery and infantry for cavalry or artillery where such changes were found expedient by reason of the character of the state military organizations.

General Corbin declared, however, that in no case had the allotment of the states been increased beyond the limit originally fixed and that such a course was now impossible unless the president should call for more troops or unless some of these states should fail to provide their quota.

## FRANCE NEUTRAL.

Issues a Decree and Notifies the Embassy at Washington—Other Governments.

Washington, April 29.—The French embassy has received a cable dispatch from the foreign office at Paris announcing that a decree of neutrality between the United States and Spain has been issued and that a detailed copy will be forwarded by mail.

The state department has also been informed that Mexico, Argentine Republic, Korea and Belgium have proclaimed neutrality. Korea's neutrality is considered important, owing to her proximity to the Philippines.

The state department has heard nothing from Germany, but this causes no apprehension owing to the strong assurances Germany has given that she will observe strict neutrality between the two belligerents. This assurance was conveyed to Ambassador White and is looked upon as practically equivalent to a formal declaration of neutrality. Germany, Austria and Portugal are the last of the important European nations to declare their attitude.

The apprehension as to Portugal's course was considerably removed yesterday by the call of Viscount De Santo Thyro, who gave strong assurances to the state department that Portugal would remain strictly neutral. Portugal explains her delay on the ground that the declaration of war was not made until the 24th inst.

## SHELLING OF MATANZAS.

Absorbing Topic in Naval and Official Circles.

Washington, April 29.—The shelling of the Matanzas batteries was the topic of absorbing interest throughout naval and official circles generally yesterday. It was discussed on the basis of the press reports from Key West, as the navy department received no information whatever on the subject. Secretary Long said last night that no report had been received from Admiral Sampson nor was the navy department advised in any way of the shelling of Matanzas. Mr. Long added that he felt no disposition to keep from the public any news concerning such an important event as a naval engagement or a battle.

The navy department has completely ceased its purchase of ships for conversion into war vessels, owing to the exhaustion of the \$50,000,000 war fund. It is confidently expected that congress will come to the relief, as the department is still in need of auxiliary vessels.

The news of the safe arrival at Liverpool of the big American ship Shenandoah was gladly received at the department. Consul Boyle, at Liverpool, forwarded the information.

## PLANS OF CAMPAIGN.

Junction Will Be Formed With Gomez and Matanzas Declared the Capital.

Washington, April 29.—The plan for forming a junction with Gomez contemplates, not only the provisioning and equipping of the insurgent army, but also the establishment by Gomez of a civil government in Matanzas and declare it the capital of the island of Cuba. The Cuban army is to be concentrated, the civil government fully established under the protection of our fleet and the army to be provisioned and equipped by the United States.

the Cubans themselves and at the same time their civil government can be perfected and so strongly entrenched that when the Spanish have evacuated, the Cubans will be prepared to give the island a stable and peaceful government.

## CONSUL GENERAL LEE.

Washington, April 29.—General Fitzhugh Lee arrived last yesterday, after a 10 days visit to his family to Virginia, with him came Miss Cisneros the Cuban girl rescued from Cabañas who has been the guest of Miss Lee. The General shared the keen public interest in the report of the shelling of Matanzas. He had visited that city frequently and was familiar with the lay of the land and the defenses. He said the batteries were antiquated and were not likely to offer any formidable resistance. General Lee called at the state department this morning. Being still an official he asked to be excused from discussing the war situation, and was very reticent concerning his prospective appointment as major general.

## LOVE SICK SOLDIER.

Member of the Sixteenth Ohio Shoots Himself Rather Than Leave His Girl.  
Clyde, O., April 26.—Private A. W. Baker of this city, a member of Company I, Sixteenth regiment, shot himself through the mouth with a 22-caliber revolver with apparently suicidal intent. Physicians say he cannot live. The trouble was he did not want to leave his best girl to go to war.

## SPANISH MAILS FOR CUBA.

Captains of the Compania Steamships Believe They Can Run the Blockade.

Madrid, April 29.—It is announced that the captains of the steamships of the compania transatlantica will undertake to carry the Spanish mails to Cuba. They say that they are certain they can force the blockade instituted by the United States fleet. Spanish residents in Mexico have cabled the government, offering to send the necessities of life to the Cubans.

## ANOTHER BIG PRIZE

The Terror and Machias Capture the Steamer Guido.

## SHOT HER PILOTHOUSE AWAY.

Crew and Passengers of the Panama Declared to Be Prisoners of War—British Gunboat Will Take England's Subjects Out of Cuba—Ordered to Newfoundland.

Key West, April 29.—Aside from the news of the Matanzas bombardment, which set the town wild with joy, the event of yesterday, practically marking the end of the first week of the war, was the arrival of a big prize, the steamer Guido. She was captured by the Terror and the gunboat Machias 10 miles off Cardenas, but not until after a stern chase. Five shots were fired, four by the monitor and one by the gunboat though the shot from the Machias did not take effect. Two of the Terror's shots went through the pilothouse and one struck a long boat and the upper works.

Manuel Rivas, a sailor, was in the pilothouse of the Guido and the flying splinters penetrated his breast inflicting wounds that may cause his death. He was brought ashore and taken to the hospital last evening. Captain Kinchison received a flesh wound in the wrist from a splinter when the shot went through the pilothouse.

The Guido was bound from Coruna to Havana, with a cargo of provisions and money, thought to be for the Spanish troops. The Terror first sighted her

WORKING A RANGEFINDER ON SHIPBOARD, and began the pursuit by sending a blank shot across her bows. The Spaniards promptly put out all her lights and started in a desperate attempt to run away.

The monitor then brought her 6-pounders into play and sent three more shots directly at her, all finding the mark. She also trained her big 12-inch guns on the Guido, prepared to sink her if she did not leave to.

Meanwhile the Machias had come up and sent a shot from a 4-inch rifle at the fugitive. Captain Kinchison, seeing that he had two such powerful enemies to combat, surrendered. A prize was put aboard and brought the steamer into Key West. As soon as Captain Kinchison and his crew learned of the conditions existing in Cuba they asked to be landed there.

The Guido is a steel, screw steamer of 1,133 tons gross and 2,572 net. She carried a crew of 36.

All the prizes still lie in the harbor and, according to instructions received from Washington the crew and passengers of the Panama which carried four 14-pound guns and which was captured by the Mangrove will be held as prisoners of war. The crews of the other prizes are also to be detained aboard until further orders and will be allowed no communication with the shore.

## IN STRAITS OF GIBRALTAR.

Spanish Torpedoboot Destroyer Watching For the Fleer de Lis.

Gibraltar, April 29.—The Spanish torpedoboot destroyer Destructor and the torpedoboots Habana and Barcelona continue reconnoitering in the straits of Gibraltar and the neighboring waters of the Mediterranean.

It is alleged that they are seeking an American yacht, the Fleer de Lis, a warship which, it is supposed, the United States has purchased from Italy, and also ships carrying sulphur to America. Some of the latter have been warned and changed their course, while it is reported that the Fleer de Lis has put into Lisbon for safety.

The sudden departure of the British cruiser Charybdis caused the greatest excitement. It was supposed an encounter was imminent and that she intended to maintain neutrality in these waters. A special land guard was mounted and preparations made to train the guns. The Charybdis fired a single shot to warn possible trespassers.

## BRITISH SUBJECTS.

Great Britain Will Send a Man of War to Take Them Out of Cuba.

London, April 29.—Owing to arrest of several Englishmen in Cuba, accused of being American spies, negotiations have been opened for taking off British subjects by British men of war.

## ORDERED TO NEWFOUNDLAND.

St. John, N. F., April 29.—In consequence of representations from the colonial government to the imperial authorities that the Spanish fleet may visit this coast to secure coal, the British colonial office has cabled to Bermuda, ordering the cruisers Cordelia and Pelican to proceed immediately to Newfoundland waters to be in readiness to cope with any emergency that might

## CAMP MOUNT.

Strict Military Discipline to Be the Rule of the Future.

Indianapolis, April 29.—The first general order by General McKee was issued yesterday, it christened the camp at the fair grounds "Camp Mount." It was followed by another establishing camp routine. The camp is now under strict military regulation, both as to officers and men, and the discipline, which has been rather lax, will hereafter be vigorously enforced. The quartermasters department is now able to meet the demands made upon it and grumbling has ceased. The six vacancies in the infantry organization were filled yesterday by the mustering in of the following independent volunteer companies: Frankfort, assigned to the Second regiment and designated as Company C.

Tipton, assigned to the Fourth regiment and designated as Company L. Martinsville, assigned to the Second regiment and designated as Company K.

Anderson, assigned to the Fourth regiment and designated as Company K. Plymouth, assigned to the Third regiment and designated as Company M.

Vincennes cadets, assigned to the First regiment and designated as Company L.

Governor Mount yesterday afternoon issued orders to General McKee to enforce the military law of the state regarding saloons, and to remove from and to prevent the establishment of any place where liquors are sold within one mile of the camp.

The state authorities are anxious for the United States mustering officer to appear that the troops may be turned over to the general government, as the cost of the camp is a very heavy expense to the state.

## AERIAL WARSHIP.

Government Equipping a Balloon to Watch Spanish Battleships.

Chicago, April 29.—Captain William J. Lloyd, assistant superintendent of the Western Union Telegraph company and commander of the signal troop for the Illinois National Guard, acting under a commission from General A. W. Greeley of the United States signal service to assist in the work of equipping a large captive balloon, to be used by the navy department in following the movements of the Spanish warships, has succeeded in securing a generator capable of producing from 350,000 to 400,000 cubic feet of gas every 24 hours and a reservoir which was made expressly for the purpose of holding the acid necessary for the formation of gas.

The generator is the only one of its kind in the United States and will be ready to be shipped to the navyyard at Governor's island next Monday. The generator has been constructed by forces of men working day and night for a week.

The work is being inspected by Silas H. Mosher, chief engineer of the Western Union building. Engineer Mosher will go to Governor's island to operate the aerial ship. Mr. Mosher served in the navy during the civil war and is an expert in the use of gas machines.

## STORY OF AN UMBRELLA.

Romantic Tale In Which Kentucky and Indiana Are Interested.

Louisville, Ky., April 29.—An umbrella was the chief factor in bringing about the engagement of John Stites, of this city, and Miss Lorena Heybach, of Sellersburg, Ind. A Louisville saloon last November, as an advertisement, loaned umbrellas to working girls. The name of the saloon was painted inside the umbrella. On November 17 Miss Heybach, while shopping, was caught without an umbrella. She was handed one of the saloon's as she passed, took it home, returned it by express, and accidentally sent her ring with it, the gold band having slipped from her finger. Stites received the package, found the ring, decided to return it in person, did so and the engagement has been announced.

## For Mothers!

THE discomforts and dangers of child-birth can be almost entirely avoided. Wine of Cardui relieves expectant mothers. It gives tone to the genital organs, and puts them in condition to do their work perfectly. That makes pregnancy less painful, shortens labor and hastens recovery after child-birth. It helps a woman bear strong healthy children.

McGEE'S Wine of Cardui

has also brought happiness to thousands of homes barren for years. A few doses often brings joy to loving hearts that long for a darling baby. No woman should neglect to try it for this trouble. It cures nine cases out of ten. All druggists sell Wine of Cardui. \$1.00 per bottle.

### POLITICAL BREVITIES.

THE man from Iowa City says Frank Groff "does not court the flattery of the press" and thus asks to be excused from further comment. Does that mean that some of the other candidates on that same ticket do "court the flattery of the press?"

"Hello, Uncle, what have you for me today?"

"Well, I'll tell you. Tother day I dropped in the Dimecrat offfus to see what sorto lookin feller that Mister Mercenary is and he says, 'can't pay no tenshun to you, you bin favorin tother paper, an I sez I ain't ast you fur nuthin yit, but I will sense you're so powerful techy. What do you no 'bout Mister Groff, our candidate fur marshul, ar why dont you say sumpin 'bout him in your valuable paper? An he jest says meak like, 'ast me sumpin eazy' Then I sez sorto sassey 'bout Mister Donnelson? And he sez, 'I did—I jest sorto tother day that Burney Shepurd wuz so mutch wurried at he lechuneared a man.' I sez, why don't you rite up the gud qualties of Charley Burkart? an he sez sorreyful like, 'I did jest tother day—I sed publicly, Charley Burkart will be lected.' I sez you're improvin' an ofured him a chaw of my terbacker an went 'oun' tu see ef they wuz keapin the brick streets cleen nuff to eat off uv."

A democratic meeting was held at Billy Humes' office last night. It was a meeting similar to some that have been held at the News office. It was a very exclusive meeting, and even a tardy candidate could not enter until he had given "the proper signs and countersigns. All the democratic nominees were there, and with them were Billy Humes, who acted as ring-master, Tom Honan, candidate for prosecuting attorney, George Thompson who is slated for street commissioner, Richard M. Hensley, who wants to be city health officer, and Dick Shields, who acted as teller. Billy Humes had the whole matter figured up and urged the immediate demands of the managers and the walking delegates in the several wards. He gave the candidates to understand that they would have to "crack down" and that right liberally, too. The amount he wanted seemed surprisingly large to some of them and, my, how they frowned. But Billy persisted. Before adjourning Billy said in an undertone, "Now, boys don't talk too much."

Since the present administration took charge of the affairs of the city the city debt has been reduced \$14,500.

The bonded debt of the city has refunded at a lower rate of interest.

The tax levy has been reduced ten cents on the one hundred dollars.

The finances of the city were never in a better condition than now, and the credit of the city was never rated higher.

All the obligations of the city are promptly paid when due, and there is now a very substantial balance in the treasury.

During this time seven blocks of brick streets have been put down which improvement has been of substantial and lasting benefit, adding to the beauty, comfort and convenience of our city.

The disappearance of sectional feeling is one of the most gratifying results of the war with Spain up to this time. Another general will have to study their histories to learn that there ever was a Mason & Dixon's line.

It is to Seymour's interest to have all the gravel roads possible centering here. Every such road more than repays its cost. There is an opportunity tomorrow to vote for the proposed gravel road between Seymour and Dudleytown and there should be a good majority in favor of it. Vote for the road!

#### National Guard Reserve.

Mayor Balsey has received a letter detailing the plans for a National Guard Reserve. The plan is to enlist men and have them drilled and held ready for any emergency. Not knowing the extent of the present war with Spain it seems wise to prepare for whatever conditions that may arise.

The plan is commended by men of military experience throughout the country. Major-General Daniel E. Sickles says of the plan:

"It is a patriotic undertaking, which will touch a sympathetic chord everywhere. I can't help thinking that the scheme, to be of practical utility, should have the sanction of Congress and placed under the direction of the war and navy departments."

### VISITATION DAY.

Seymour Public Schools Receive Many Visitors.

Today the several departments of the city schools have been visited by a large number of patrons, city officials and other friends of public education.

About 9 o'clock this forenoon a party consisting of Superintendent Montomery, Messrs. Masters, Conner and Frey, of the school board, Mayor Balsey and Councilmen Burkley, Thompson, Schwing and Miller and Rev. J. W. Clevenger started to make a round of the buildings. They first went to the Lynn street school which they found under splendid control. Mayor Balsey made a short and appropriate talk in Principal Stewart's room.

They then went to Laurel street school and looked in upon the work being done in the four rooms there. Rev. Clevenger made a short talk at this building.

Next the Third ward school was visited and the work being done there inspected. Mayor Balsey spoke briefly at this building.

The party then went to the Park school and viewed the work being done there by the teachers and pupils. Mr. Burkley made a brief talk in the principal's room at this building.

This afternoon this party visited the different grades and the high school at the Shields building. They found the work being done here, as they had found it at each of the other buildings, of a high order. The children in the several schools give every evidence of happiness and contentment, such as characterize only the best of schools.

The survey of the schools today very clearly shows that Seymour has superior educational advantages. Our schools are carefully managed, ably superintended and efficiently taught. Every resident of the city should take great pride in our excellent system of public schools and the progress being made here at home along educational lines.

"I always let a cold go as it comes"—one says: which means that he overworks the system in getting rid of a cold rather than assist it by using Dr. Bull's Cough Syrup.

#### Branaman—Sheats.

Many of our readers will no doubt be surprised to learn of the marriage of Oscar Branaman, of near Freetown, to Miss Maggie Sheats, of this place, which occurred at Louisville Saturday, April 23rd, 1898. They returned here Monday night.—Brownstown Banner.

One of the Jeffersonville militia in writing to the News of that city speaks of their passing through Seymour as follows:

"At Seymour we took on two cars containing company G, of Brownstown. This command also belongs to the First Regiment and was formed last December to take the vacancy caused by the mustering out of Jeffersonville's company. From the number of people at the station everybody in Jackson county must have been out to see the boys off. This was to be their first taste of even camp life."

Discovered by a Woman.

Another great discovery has been made and that too, by a lady in this country. "Disease fastened its clutches upon her and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly, and could not sleep. She finally discovered a way to recovery, by purchasing of us a bottle of Dr. King's New Discovery for Consumption, and was so much relieved on taking the first dose, that she slept all night and with two bottles has been absolutely cured. Her name is Mrs. Luther Lutz. Thus writes W. C. Hammick & Co., of Shelby, N. C. Trial bottles free at W. F. Peter Drug Store. Regular size 50c and 1.00. Every bottle guaranteed.

The Other War.

Indianapolis in 1861 was designated a rendezvous for Indiana troops. The state fair grounds were converted into a camp, which was named in honor of the governor, Camp Morton. The day after the call was made 500 men were in camp. By the 19th, three days after the call, 2,400 men were in camp and arrivals were flocking in from other parts of the state. In less than seven days 12,000 men, or nearly three times the quota required, had volunteered. As it is today, the question then was not "Who will go?" but "Who will be allowed to go?" More new companies than were wanted were formed, and men almost fought to be the ones chosen for enlistment.

"A word to the wise is sufficient" and a word from the wise should be sufficient, but you ask who are the wise? Those who know. The oft repeated experience of trustworthy persons may be taken for knowledge. Mr. W. M. Terry says Chamberlain's Cough Remedy gives better satisfaction than any other in the market. He has been in the drug business at Elkhart, Ky., for twelve years; he has sold hundreds of bottles of this remedy and all other cough medicines manufactured, which shows conclusively that Chamberlain's is the most satisfactory to the people, and is the best. ## ONE OF TWO WAYS.

The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases.

CHIEF CAUSE.

Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the womb, like the bladder, was created for one purpose, and if not looked too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often, by mistake, attributed to female weakness or womb trouble of some sort. The error is easily made and may be as easily avoided. To find out correctly, see your urine aside for twenty-four hours; sediment or settling indicates kidney or bladder trouble. The mild and extraordinary effect of Dr. Kilmer's Swamp Root, the great kidney and bladder remedy is soon realized. If you need any medicine you should have the best. At druggists fifty cents and one dollar. You may have a sample bottle and pamphlet, both sent free by mail, upon receipt of three two-cent stamps to cover cost of postage on the bottle. Mention the Bazaar and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee its genuineness of this offer.

Our Sister Republic.

Everything in Mexico is so radically different from what we find at home that the tourist is perpetually charmed as well as interested. Its civilization runs back to so many centuries and has left so many enduring monuments, its people are so quaint and picturesque, its scenery so bold and rugged, and its cities so novel in their phases of local life, that one never tires of sightseeing in this charming land. The City of Mexico itself, with its great cathedral, its many churches, its byways teaming with busy life and novel industries, its wonderful environs, the holy sepulchres to which the pilgrimages are made, its palaces, is well worth weeks of study, while many lesser cities are centers of peculiar interest. Thus Guanajuato its catacombs; Zuzacatecas, the great silver mining center; Guadalajara, the so-called Boston of Mexico and the center of its art life, and Durango, the great iron mining district. There are but a few of the more conspicuous points which the tourist makes stopping places on his journey. Any agent of the Southern Pacific road will take pleasure in giving the inquirer full information, or by writing to W. W. Niemeyer, Gen. Western Agent, Southern Pacific Co., 238 Clark St., Chicago, copies of the new pamphlet on Mexico, entitled "Vamos a Mexico," which the Southern Pacific has just issued, will be sent you if you inclose four cents in stamps.

Discovered by a Woman.

Another great discovery has been made and that too, by a lady in this country. "Disease fastened its clutches upon her and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly and could not sleep. She finally discovered a way to recovery, by purchasing of us a bottle of Dr. King's New Discovery for Consumption, and was so much relieved on taking the first dose, that she slept all night; and with two bottles, has been absolutely cured. Her name is Mrs. Luther Lutz." Thus writes W. C. Hamrick & Co., of Shelby, N. C. Trial bottles free at W. F. Peter Drug Store. Regular size 50c and 1.00. Every bottle guaranteed.

The Other War.

Indiana in 1861 was designated a rendezvous for Indiana troops. The state fair grounds were converted into a camp, which was named in honor of the governor, Camp Morton. The day after the call was made 500 men were in camp. By the 19th, three days after the call, 2,400 men were in camp and arrivals were flocking in from other parts of the state. In less than seven days 12,000 men, or nearly three times the quota required, had volunteered. As it is today, the question then was not "Who will go?" but "Who will be allowed to go?" More new companies than were wanted were formed, and men almost fought to be the ones chosen for enlistment.

## Dr. Miles' Heart Cure

Cures a Prominent Attorney.

M. R. C. PHELPS, the leading pension attorney of Belfast, N. Y., writes: "I was discharged from the army on account of ill health, and suffered from heart trouble ever since. I frequently had fainting and smothering spells. My form was bent as a man of 50. I constantly wore an overcoat, even in summer, for fear of taking cold. I could not attend to my business. My rest was broken by severe pains about the heart and left shoulder. Three years ago I commenced using Dr. Miles' Heart Cure, notwithstanding I had used so much patent medicine and taken drugs from doctors for years without being helped. Dr. Miles' Heart Cure restored me to health. It is truly a wonderful medicine and it affords me much pleasure to recommend this remedy to everyone."

## FRANCE DECLARES NEUTRALITY

Nothing Has Been Heard From Germany by the State Department.

Portugal's Minister Says His Government Will Remain Neutral—United States Equipping a Balloon to Watch the Movement of Spanish Warships—Shelling of Matanzas Sole Topic in Naval and Official Circles—Camp Mount Planned Under the Strictest Military Discipline and Volunteer Companies Assigned. Consul General Lee in Washington. Conference Committee Agrees to the Naval Appropriation Bill.

Chattanooga, Tenn., April 29.—All of the Ninth cavalry, the Twenty-fourth infantry and the entire eight batteries of artillery, now centered at Chickamauga, will leave for the south as soon as they can be loaded into the cars, which are in readiness for them. By tonight, it is thought, all of the trains will be on their way to Tampa. The first intimation last night of the order was when a bugler of the Ninth cavalry, with the two companies of that regiment, which arrived from Utah yesterday, sounded the "assembly," and the few troops who had been given permission to leave the cars, hurried along the streets to the railroad yards. News of the ordering of the troops south drew a tremendous crowd around the depot and railroad yards, and the soldiers were cheered again and again as the train pulled out.

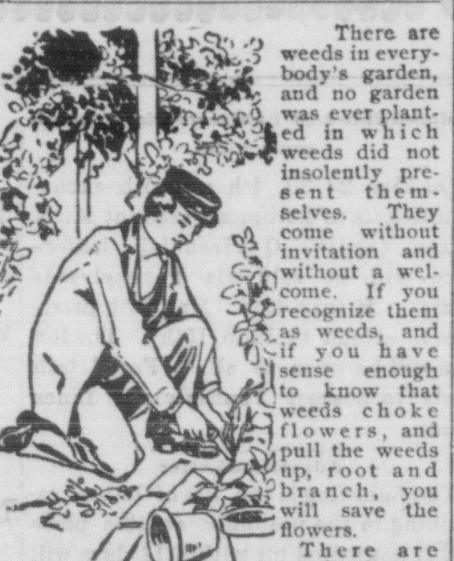

COCHRAN'S COMMAND. Order to Hold It in Readiness For Immediate Departure.

Tampa, Fla., April 29.—Soon after the news of the bombardment of Matanzas forts by Admiral Sampson reached here Colonel Melville A. Cochran, commanding the first provisional brigade of Tampa division, received orders from Washington to hold his command in readiness for immediate departure with rations for 30 days.

## SECURED TRANSPORTS.

Government Charters Eight Vessels to Carry Troops to Cuba.

Washington, April 29.—A rather striking sign of the imminence of the invasion of Cuba is contained in the chartering by the war department of eight large steamers of an average capacity of about 2,000 tons, and able to carry from 500 to 1,200 passengers each. These are to be used as transports for the conveyance of the first military ex-

There are weeds in everybody's garden, and no garden was ever planted in which weeds did not insidiously present themselves. They come without invitation and without a welcome. If you recognize them as weeds, and pull them out, you will save the flowers. There are weeds in the health-garden of many a man and woman. The doctors call them disease germs. If you have sense enough to distinguish them from the flowers of health, and root them out, you will be robust, healthy and happy. The most dangerous of all the weeds in the flower garden of health is that deadly creeper consumption. There has never been but one medicine that would choke out this weed, root and all. That medicine is Dr. Pierce's Golden Medical Discovery. It acts directly on the lungs through the blood, driving out all impurities and disease germs, and building up new and healthy tissue. It restores the lost appetite, makes digestion and assimilation perfect, invigorates the liver, purifies the blood and fills it with the life-giving elements of the food and tones and builds up the nerves. It sustains the action of the heart and deepens the breathing, supplying the blood with life-giving oxygen. Medicine dealers sell it.

pedition to Cuba. The names of the boats are the Olivette and Florida of the Plant line, now in the Gulf; the Southern Pacific company's steamer, Aranzas, the New York and Texas companies' vessels, Comal, now at New York, and the Malamo, now enroute to the gulf; and three fine ships of the Boston merchant and miners' line, in Baltimore—the Allegheny, the Berkshire and the Decatur Miller.

The price paid for these vessels is from \$10,000 to \$15,000 for the 30 days for which they are engaged. They will be taken charge of by the quartermaster's department at the earliest possible moment.

General Shafter in command of the United States troops now concentrated at New Orleans was in consultation with the officials yesterday as to the execution of plans of the campaign, but the orders given to him cannot be made public.

The president and cabinet are today considering the large number of applications that have been made for appointment to the posts of major general and brigadier general and there is some expectation that the president will nominate a few of these officers this evening.

## ALLOTMENT WILL STAND.

Will Be No Change in the Number of Troops to Be Furnished by States.

Washington, April 29.—Adjutant General Corbin says that the secretary of war has decided to adhere to the allotments already made to the various states and territories under the president's call for 125,000 men for service in the volunteer army, and that it is only a waste of time for the officials of the different states to endeavor to have their allotments increased. He said there had been several changes made in the original plan, due to the necessities of the case, and that in one or two instances where it was advisable changes had been made in the character of the troops that the states or territories should furnish, cavalry being substituted for artillery and infantry for cavalry or artillery where such changes were found expedient by reason of the character of the state military organizations.

General Corbin declared, however, that in no case had the allotment of the states been increased beyond the limit originally fixed and that such a course was now impossible unless the president should call for more troops or unless some of these states should fail to provide their quota.

## FRANCE NEUTRAL.

Issues a Decree and Notifies the Embassy at Washington—Other Governments.

Washington, April 29.—The French embassy has received a cable dispatch from the foreign office at Paris announcing that a decree of neutrality between the United States and Spain has been issued and that a detailed copy will be forwarded by mail.

The state department has also been informed that Mexico, Argentina Republic, Korea and Belgium have proclaimed neutrality. Korea's neutrality is considered important, owing to her proximity to the Philippines.

The state department has heard nothing from Germany, but this causes no apprehension owing to the strong assurances Germany has given that she will observe strict neutrality between the two belligerents. This assurance was conveyed to Ambassador White and is looked upon as practically equivalent to a formal declaration of neutrality. Germany, Austria and Portugal are the last of the important European nations to declare their attitude.

The apprehension as to Portugal's course was considerably removed yesterday by the call of Viscount De Santo Thyrsio, who gave strong assurances to the state department that Portugal would remain strictly neutral. Portugal explains her delay on the ground that the declaration of war was not made until the 24th inst.

## SHELLING OF MATANZAS.

Absorbing Topic in Naval and Official Circles.

Washington, April 29.—The shelling of the Matanzas batteries was the topic of absorbing interest throughout naval and official circles generally yesterday. It was discussed on the basis of the press reports from Key West, as the navy department received no information whatever on the subject. Secretary Long said last night that no report had been received from Admiral Sampson nor was the navy department advised in any way of the shelling of Matanzas. Mr. Long added that he felt no disposition to keep from the public any news concerning such an important event as a naval engagement or a battle.

The navy department has completely ceased its purchase of ships for conversion into war vessels, owing to the exhaustion of the \$50,000,000 war fund. It is confidently expected that congress will come to the relief, as the department is still in need of auxiliary vessels.

The news of the safe arrival at Liverpool of the big American ship Shenandoah was gladly received at the department. Consul Boyle, at Liverpool, forwarded the information.

## PLANS OF CAMPAIGN.

Junction Will Be Formed With Gomez and Matanzas Declared the Capital.

Washington, April 29.—The plan for forming a junction with Gomez contemplates, not only the provisioning and equipping of the insurgent army, but also the establishment by Gomez of a civil government in Matanzas and declare it the capital of the island of Cuba. The Cuban army is to be concentrated, the civil government fully established under the protection of our fleet and the army to be provisioned and equipped by the United States.

It is calculated that under this plan

the Cubans themselves and at the same time their civil government can be perfected and so strongly entrenched that when the Spanish have evacuated, the Cubans will be prepared to give the island a stable and peaceful government.

## Consul General Lee.

Washington, April 29.—General Fitzhugh Lee arrived last yesterday, after a 10 days visit to his family to Virginia, with him came Miss Cisneros the Cuban girl rescued from Cabañas who has been the guest of Miss Lee. The General shared the keen public interest in the report of the shelling of Matanzas. He had visited that city frequently and was familiar with the lay of the land and the defenses. He said the batteries were antiquated and were not likely to offer any formidable resistance. General Lee called at the state department this morning. Being still an official he asked to be excused from discussing the war situation, and was very reticent concerning his prospective appointment as major general.

## LOVE SICK SOLDIER.

Member of the Sixteenth Ohio Shoots Himself Rather Than Leave His Girl.

Clyde, O., April 26.—Private A. W. Baker of this city, a member of Company I, Sixteenth regiment, shot himself through the mouth with a 22-caliber revolver with apparently suicidal intent. Physicians say he cannot live. The trouble was he did not want to leave his best girl to go to war.

## SPANISH MAILS FOR CUBA.

Captains of the Compania Steamships Believe They Can Run the Blockade.

Madrid, April 29.—It is announced that the captains of the steamships of the compania transatlantica will undertake to carry the Spanish mails to Cuba. They say that they are certain they can force the blockade instituted by the United States fleet. Spanish residents in Mexico have cabled the government, offering to send the necessities of life to the Cubans.

## ANOTHER BIG PRIZE

The Terror and Machias Capture the Steamer Guido.

## SHOT HER PILOTHOUSE AWAY.

Crew and Passengers of the Panama Declared to Be Prisoners of War—British Gunboat Will Take England's Subjects Out of Cuba—Ordered to Newfoundland.

Key West, April 29.—Aside from the news of the Matanzas bombardment, which set the town wild with joy, the event of yesterday, practically marking the end of the first week of the war, was the arrival of a big prize, the steamer Guido. She was captured by the Terror and the gunboat Machias 10 miles off Cardenas, but not until after a stern chase. Five shots were fired, four by the monitor and one by the gunboat though the shot from the Machias did not take effect. Two of the Terror's shots went through the pilothouse and one struck a long boat and the upper works.

Manuel Rivas, a sailor, was in the pilothouse of the Guido and the flying splinters penetrated his breast inflicting wounds that may cause his death. He was brought ashore and taken to the hospital last evening. Captain Kitchin received a flesh wound in the wrist from a splinter when the shot went through the pilothouse.

The Guido was bound from Coruna to Havana, with a cargo of provisions and money, thought to be for the Spanish troops. The Terror first sighted her

WORKING A RANGEFINDER ON SHIPBOARD, and began the pursuit by sending a blank shot across her bows. The Spaniards promptly put out all her lights and started in a desperate attempt to run away.

The monitor then brought her 6-pounders into play and sent three more shots directly at her, all finding the mark. She also trained her big 12-inch guns on the Guido, prepared to sink her if she did not leave to.

Meanwhile the Machias had come up and sent a shot from a 4-inch rifle at the fugitive. Captain Kitchin, seeing that he had two such powerful enemies to combat, surrendered. A prize was put aboard and brought the steamer into Key West. As soon as Captain Kitchin and his crew learned of the conditions existing in Cuba they asked to be landed there.

The Guido is a steel, screw steamer of 3,133 tons gross and 2,872 net. She carried a crew of 36.

All the prizes still lie in the harbor and, according to instructions received from Washington the crew and passengers of the Panama which carried four 14-pound guns and which was captured by the Mangrove will be held as prisoners of war. The crews of the other prizes are also to be detained aboard until further orders and will be allowed no communication with the shore.

## IN STRAITS OF GIBRALTAR.

Spanish Torpedoboot Destroyer Watching For the Fleur de Lis.

Gibraltar, April 29.—The Spanish torpedoboot destroyer Destructor and the torpedoboats Habana and Barcelona continue reconnoitering in the straits of Gibraltar and the neighboring waters of the Mediterranean.

It is alleged that they are seeking an American yacht, the Fleur de Lis, a warship which, it is supposed, the United States has purchased from Italy, and also ships carrying sulphur to America. Some of the latter have been warned and changed their course, while it is reported that the Fleur de Lis has put into Lisbon for safety.

The sudden departure of the British cruiser Charybdis caused the greatest excitement. It was supposed an encounter was imminent and that she intended to maintain neutrality in those waters. A special land guard was mounted and preparations made to train the guns. The Charybdis fired a single shot to warn possible trespassers.

## BRITISH SUBJECTS.

Great Britain Will Send a Man of War to Take Them Out of Cuba.

London, April 29.—Owing to arrest of several Englishmen in Cuba, accused of being American spies, negotiations have been opened for taking off British subjects by British men of war.

## Ordered to Newfoundland.

St. John, N. F., April 29.—In consequence of representations from the colonial government to the imperial authorities that the Spanish fleet may visit this coast to secure coal, the British colonial office has cabled to Bermuda, ordering the cruisers Cordelia and Pelican to proceed immediately to Newfoundland waters to be in readiness to cope with any emergency that might

## CAMP MOUNT.

Strict Military Discipline to Be the Rule of the Future.

Indianapolis, April 29.—The first general order by General McKee was issued yesterday, it christened the camp at the fair grounds "Camp Mount." It was followed by another establishing camp routine. The camp is now under strict military regulation, both as to officers and men, and the discipline, which has been rather lax, will hereafter be vigorously enforced. The quartermaster's department is now able to meet the demands made upon it and grumbling has ceased. The six vacancies in the infantry organization were filled yesterday by the mustering in of the following independent volunteer companies: Frankfort, assigned to the Second regiment and designated as Company C.

Tipton, assigned to the Fourth regiment and designated as Company L.

Martinsville, assigned to the Second regiment and designated as Company K.

Anderson, assigned to the Fourth regiment and designated as Company K.

Plymouth, assigned to the Third regiment and designated as Company M.

Vincennes cadets, assigned to the First regiment and designated as Company L.

Governor Mount yesterday afternoon issued orders to General McKee to enforce the military law of the state regarding saloons, and to remove from and to prevent the establishment of any place where liquors are sold within one mile of the camp.

The state authorities are anxious for the United States mustering officer to appear that the troops may be turned over to the general government, as the cost of the camp is a very heavy expense to the state.

## AERIAL WARSHIP.

Government Equipping a Balloon to Watch Spanish Battleships.

Chicago, April 29.—Captain William J. Lloyd, assistant superintendent of the Western Union Telegraph company and commander of the signal troop for the Illinois National Guard, acting under a commission from General A. W. Greely of the United States signal service to assist in the work of equipping a large captive balloon, to be used by the navy department in following the movements of the Spanish warships, has succeeded in securing a generator capable of producing from 350,000 to 400,000 cubic feet of gas every 24 hours and a reservoir which was made expressly for the purpose of holding the acid necessary for the formation of gas.

The generator is the only one of its kind in the United States and will be ready to be shipped to the navyyard at Governor's island next Monday. The generator has been constructed by forces of men working day and night for a week.

The work is being inspected by Silas H. Mosher, chief engineer of the Western Union building. Engineer Mosher will go to Governor's island to operate the aerial ship. Mr. Mosher served in the navy during the civil war and is an expert in the use of gas machines.

On November 17 Miss Heybach, while shopping, was caught without an umbrella. She was handed one of the saloon's as she passed, took it home, returned it by express, and accidentally sent her ring with it, the gold band having slipped from her finger. Stites received the package, found the ring, decided to return it in person, did so and the engagement has been announced.

#### National Guard Reserve.

Mayor Balsley has received a letter detailing the plans for a National Guard Reserve. The plan is to enlist men and have them drilled and held ready for any emergency. Not knowing the extent of the present war with Spain it seems wise to prepare for whatever conditions that may arise.

The plan is commended by men of military experience throughout the country. Major-General Daniel E. Sickles says of the plan:

"It is a patriotic undertaking, which will touch a sympathetic chord everywhere. I can't help thinking that the scheme, to be of practical utility, should have the sanction of Congress and placed under the direction of the war and navy departments."

### VISITATION DAY.

Seymour Public Schools Receive Many Visitors.

Today the several departments of the city schools have been visited by a large number of patrons, city officials and other friends of public education.

About 9 o'clock this forenoon a party consisting of Superintendent Montomery, Messrs. Masters, Conner and Frey, of the school board, Mayor Balsley and Councilmen Burkley, Thompson, Schwing and Miller and Rev. J. W. Clevenger started to make a round of the buildings. They first went to the Lynn street school which they found under splendid control. Mayor Balsley made a short and appropriate talk in Principal Stewart's room.

They then went to Laurel street school and looked in upon the work being done in the four rooms there. Rev. Clevenger made a short talk at this building.

Next the Third ward school was visited and the work being done there inspected. Mayor Balsley spoke briefly at this building.

The party then went to the Park school and viewed the work being done there by the teachers and pupils. Mr. Burkley made a brief talk in the principal's room at this building.

This afternoon this party visited the different grades and the high school at the Shields building. They found the work being done here, as they had found it at each of the other buildings, of a high order. The children in the several schools give every evidence of happiness and contentment, such as characterize only the best of schools.

The survey of the schools today very clearly shows that Seymour has superior educational advantages. Our schools are carefully managed, ably superintended and efficiently taught. Every resident of the city should take great pride in our excellent system of public schools and the progress being made here at home along educational lines.

"I always let a cold go as it comes"—one says: which means that he overworks the system in getting rid of a cold rather than assist it by using Dr. Bull's Cough Syrup.

#### Branaman—Sheats.

Many of our readers will no doubt be surprised to learn of the marriage of Oscar Branaman, of near Freetown, to Miss Maggie Sheats, of this place, which occurred at Louisville Saturday, April 23rd, 1898. They returned here Monday night.—Brownstown Banner.

One of the Jeffersonville militia in writing to the News of that city speaks of their passing through Seymour as follows:

"At Seymour we took on two cars containing company G, of Brownstown. This command also belongs to the First Regiment and was formed last December to take the vacancy caused by the mustering out of Jeffersonville's company. From the number of people at the station everybody in Jackson county must have been out to see the boys off. This was to be their first taste of even camp life."

## BUSINESS NOTES.

G. S. Howell, of Louisville, is in the city on business.

J. E. Muirberger is here from Cincinnati on business.

C. A. Saltmarsh came home last evening from the county seat.

C. F. Caldwell went last evening to Bedford on important business.

Townson Hand and wife who runs a hotel at Jonesville, drove down to the city last evening to purchase provisions and dry goods.

J. H. Malott who has been looking over his fine farms west of here and in the city on business returned last night to Indianapolis. Mr. Malott reports wheat and grass in good condition.

Preston Rider who purchased the Canning Factory here, informed us last evening that he is getting the plant well under way for business. He also stated that he has the promise of over 200 acres of tomatoes.

Discovered by a Woman.

Another great discovery has been made and that too, by a lady in this country. "Disease fastened its clutches upon her and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly, and could not sleep. She finally discovered a way to recovery, by purchasing of us a bottle of Dr. King's New Discovery for Consumption, and was so much relieved on taking the first dose, that she slept all night; and with two bottles, has been absolutely cured. Her name is Mrs. Luther Lutz." Thus writes W. C. Hamrick & Co., of Shelby, N. C. Trial bottles free at W. F. Peter Drug Store. Regular size 50c and 1.00. Every bottle guaranteed.

The Other War.

Indianapolis in 1861 was designated a rendezvous for Indiana troops. The state fair grounds were converted into a camp, which was named in honor of the governor, Camp Morton. The day after the call was made 500 men were in camp. By the 19th, three days after the call, 2,400 men were in camp and arrivals were flocking in from other parts of the state. In less than seven days 12,000 men, or nearly three times the quota required, had volunteered. As it is today, the question then was not "Who will go?" but "Who will be allowed to go?" More new companies than were wanted were formed, and men almost fought to be the ones chosen for enlistment.

"A word to the wise is sufficient" and a word from the wise should be sufficient, but you ask who are the wise? Those who know. The oft repeated experience of trustworthy persons may be taken for knowledge. Mr. W. M. Terry says Chamberlain's Cough Remedy gives better satisfaction than any other in the market. He has been in the drug business at Elkton, Ky. for twelve years; he has sold hundreds of bottles of this remedy and all other cough medicines manufactured, which shows conclusively that Chamberlain's is the most satisfactory to the people, and is the best. For sale by C. W. Milhous.

Apple Crop Will Be Short.

'There is not much prospect for a good apple crop,' said Sylvester Johnson. 'I have thirty trees and none will bear. I have examined them closely and have discovered a phenomenal cause, I believe. The continued late drought last fall starved the trees and have not recuperated enough to bear buds. That they were not winter killed is shown by the life of other fruit. The trees will recuperate and bear heavily next season. I find several others with the same experience as myself.'—Franklin Star.

## ONE OF TWO WAYS.

The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases.

## CHIEF CAUSE.

Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the womb, like the bladder, has created for one purpose, and if not looked too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often, by mistake, attributed to female weakness or womb trouble of some sort. The error is easily made and may be as easily avoided. To find out correctly, send your urine aside for twenty four hours; sediment or settling indicates kidney or bladder trouble. The mild and the extraordinary effect of Dr. Kilmer's Swamp Root, the great kidney and bladder remedy is soon realized. If you need any medicine you should have the best. At druggists fifty cents and one dollar. You may have a sample bottle and pamphlet, both sent free by mail, upon receipt of three two-cent stamps to cover cost of postage on the bottle. Mention the Register and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee its genuineness of this offer.
